

Nice to meet you!

Let's chat

I'm a designer. I specialize in motion graphics, print, front-end web development, and UI/UX design. I've lived in Caracas, Orlando, and most recently New York City, and in my many travels I've gained a love and appreciation for the art of design and its impact on culture and business. I want to learn, grow and do something that matters - for the world, for my community, and for me.

Don't be afraid to give me a ring, I'd love to hear back!
